Hiếu Nguyễn Trung

Software Engineer

Dob: October 15, 2002
Gender: Male
Phone: 0966619460
Email: hieuntt1511@gmail.com
Address: Thach Khoi Ward, Hai Phong City, Viet Nam

OBJECTIVE

Dedicated Software Engineer with over 4 years of experience specializing in high-performance backend systems and server hardening. Proven track record in optimizing system architecture and implementing secure data retrieval protocols. I am seeking to leverage my expertise in Go, Rust, and container security to build robust, scalable infrastructure at Viettel Cyber Security, while aiming to evolve into a technical leadership role within the next 3 years.

EDUCATION

2020 - 2024

HaNoi University of science and technology.

Computer Science

GPA: 3.3/4

WORK EXPERIENCE

June 2024 - Present

Viettel Cyber Security, Hanoi

Software Engineer

- Designed and implemented scalable Microservices using Go and Python, handling high-throughput data processing for multiple cybersecurity product lines.
- Developed high-performance Packet Analysis modules at Layer 3 (L3), optimizing network traffic inspection to minimize processing latency.
- Architected and managed system-wide Version Control and CI/CD workflows, ensuring code integrity and streamlined release cycles across distributed development teams.
- Mentored and trained junior software engineers, leading technical seminars and code reviews to improve team proficiency and maintain high engineering standards.

2021 - 2022

Tokyo Tech Lab, Hanoi

Enterprise Construction Management Software - Backend Developer

- Engineered core RESTful APIs to support complex construction management workflows, including resource scheduling, progress tracking, and cost management for enterprise-grade web software.
- Architected 3D Data Integration modules, enabling the seamless synchronization of large-scale architectural simulations with the management dashboard using optimized data formats.
- Collaborated in an Agile team of 7 to define technical specifications and system architecture, ensuring high availability and scalability for the construction firm's digital infrastructure.

HONORS & AWARDS

2025	**Emulation Fighter at Corporate Level ("Chien si thi dua" Viettel Group)**
2025	**Nominated for Exemplary Employee of the Year**
2025	**Employee of the Month** (Mar, Apr, Sep, Nov 2025)
August 2024	**Third Prize – Viettel Programming Contest**

SKILLS

Communication skill	Strong ability to translate complex technical requirements into actionable business logic and documentation.
Teamwork skill	Skilled in collaborating within Agile/Scrum teams of 7-10 members, participating in rigorous code reviews and system design brainstorming.
Problem-Solving Skill	Experienced in troubleshooting system bottlenecks, memory management in low-level programming
Time Management Skill	Proven track record of maintaining a high on-time project completion rate (over 95%) while managing multiple microservices projects.
IT Proficiency	Go, Python, Microservices, L3 Packet Analysis, Docker/K8s, Kafka, gRPC, Server Hardening, CI/CD, PostgreSQL, Redis.
Language Skills	Vietnamese (Native), Basic English

INTERESTS

Reading, Running, Traveling
